

**Senior Mechanical Engineer**

Miura | Full Time | Rockmart, GA, US

**Purpose of position:**

Miura America is growing and has a new opening for an experienced mechanical engineer within the production engineering group. Production engineers develop new steam generation equipment, work on design improvements, provide factory support, test equipment, and control designs by managing drawings and bills of material. This position will assume advanced responsibilities such as managing product development projects, managing ASME pressure vessel code compliance, etc. and is expected to supervise junior engineers on a project basis.

The position is based at our headquarters in Rockmart, GA with typical 8-5 hours. While the nature of the work often requires duties to be performed in person, remote work is encouraged as tasks allow.

The correct candidate will be professional, self-directed, and enjoy problem solving while having a firm understanding of engineering fundamentals. The position has the opportunity to grow into a supervisory role.
